"By George, I never saw anything like  
the effects of that new treatment, Pro-  
tone, for the building up of weight and  
lost nerve force. It acted more like a  
miracle than a medicine," said a well  
known gentleman yesterday, in speaking  
of the revolution that had taken place in  
his condition. "I began to think that  
there was nothing on earth that could  
make me fat. I tried tonics, digestives,  
heavy eating diets, milk, beer and almost  
everything else you could think of, but  
without result."

Any Man or Woman Who is Thin Can  
Recover Natural Weight By the Re-  
markable New Treatment, Protone.

I had been thin for years, and began  
to think it was natural for me to be  
that way. Finally I read about the re-  
markable processes brought about by the  
use of Protone, so I decided to try  
myself. Well, when I look at myself in  
the mirror now, I think it is somebody  
else. I have put on 30 pounds during  
the last month and never felt stronger  
or more 'nervy' in my life."

Protone is a powerful inducer of nutri-  
tion, increases cell-growth, makes per-  
fect the assimilation of food, increases  
the number of blood corpuscles, and as  
a necessary result builds up muscles and  
solid, healthy flesh, and rounds out the  
figure.

For women who can never appear sty-  
lish in anything they wear because of  
their thinness, this remarkable treat-  
ment may prove a revelation. It is a  
beauty-maker as well as a form-builder  
and nerve-strengthening.

It will cost you nothing to prove the  
remarkable effects of this treatment. It  
is absolutely non-injurious to the most  
delicate system. The Protone Company,  
1298 Protone Bldg., Detroit, Mich., will  
send to anyone who sends name and ad-  
dress a free 50c package of Protone, with  
full instructions, to prove that it does  
the work. They will also send you their  
book on "Why You Are Thin," free of  
charge, giving facts which will probably  
astonish you. Send coupon below to-day  
with your name and address.

age will be even greater than at first  
reported. Caskets are being sent from  
here to the stricken districts and more  
orders are yet to be filled.

From the entire district comes the  
report of houses destroyed, growing  
crops blighted, stock killed in great  
numbers, and people killed and  
mangled.

Some houses were blown entirely  
away and left nothing to tell where  
they once stood; some were unroofed  
and left the occupants in bed, mangled  
or unhurt.

One of the saddest scenes comes  
from Hillsboro, the home of Mr. Mar-  
lin. In one room lay the two Mar-  
lin boys, who were blown with the  
house. The bodies were not recovered  
until to-day; in another room lay  
Carroll Marlin, age twelve years, in a  
dying condition from a crushed head.  
Near him in different beds were the  
father and mother.

The death list, it is believed, will  
be more than a hundred in Tennessee.

Heavy Calendars Are  
Before the Legislature

(Continued From First Page)

the ball rolling in this direction. Tied  
hand in hand with this is the reap-  
portionment problem. Both will receive  
the most serious consideration and are  
perhaps of greater importance to the  
state than any other matters before  
the legislature.

Senator Buell Cook has introduced  
a joint resolution calling attention to  
the needed revision of the constitu-  
tion. Its adoption would mean the  
submitting to the popular vote of the  
question of calling a convention. In  
this way it is after all up to the peo-  
ple. There is a sentiment in the leg-  
islature for the calling of the body,  
but many of the members feel a lit-  
tle afraid of monkeying with the pro-  
position at all. In the meantime, the  
state constitution is practically an un-  
intelligible proposition and there are

amendments enough before the legis-  
lature to—if adopted—finish the job.

This legislature will not pass a bill  
making an appropriation in final set-  
tlement of the Wailes claim. While  
Col. Wailes has all kinds of evidence  
to prove that he is justly entitled  
to the money for his work in settling  
the Indian war claims with the gov-  
ernment, every legislature is less in-  
clined to do anything in the matter.  
But it is quite probable that an en-  
abling act may be passed by the pre-  
sent body which will enable those con-  
cerned to bring suit against the state

in the courts. This is said to be en-  
tirely satisfactory to Col. Wailes and  
the others concerned.

The legislature could hardly refuse  
in reason to pass such an act, for it  
is only in common justice and en-  
ables the state to be sued in certain  
cases. Senator Harris, of Key West,  
introduced a bill to this effect and the  
senate judiciary committee reported  
the measure favorably to-day. If this  
act is passed it will enable a claim  
nearly as old as the state to be fin-  
ally and justly settled by the courts.  
Representative Light, who is one of

the former members from down in old  
Marion county, and isn't a bit ashamed  
of the fact, has suddenly and really  
unexpectedly to himself sprung into  
the limelight. He introduced a bill  
providing for a franchise tax of one  
per cent. of the gross earnings of  
practically all public utility corpora-  
tions in Florida. One per cent. doesn't  
sound so big, but the manner in which  
the corporation's representatives have  
been jumping around the legislative  
halls and appearing before commit-  
tees against the measure indicates that  
it is considered a decidedly stringent  
bill.

## BAYOU GRANDE

BEACH HAVEN is that beautiful tract of land situated on Bayou Grande,  
just four (4) miles from the heart of the city; an ideal location for an "all-the-  
year" home and only 20 minutes trolley ride from Pensacola.

BEACH HAVEN is easily accessible for the business man, a boon for  
the housewife and a delightful spot for the children to "play out of doors."

BEACH HAVEN has a three (3) mile water front, with a beach reserva-  
tion of 150 feet, all streets and avenues 60 to 80 feet wide.

The waters of Bayou Grande afford delightful bathing and excellent fish-  
ing and boating.

Building restrictions are uniformly such as to eliminate all unpleasant  
features.

The Beach Haven Railroad, owned and maintained by this company, will  
form a complete belt line around the property, affording car service to all parts  
of the tract; our line now extends within 3-4 of a mile of the water, and our cars  
will run to the Beach within 60 days or as soon before as our workmen can lay  
the rails. Cars will run on schedule time, connecting with the cars of the Pensa-  
cola Electric Co., at the Big Bayou Station.
